

From Patient to Prescriber

A pharmacist's journey into anticoagulation

Clare Clarke

M & M Pharmacies Ltd

Durham Dales, Easington and Sedgfield CCG

Where we were

- NICE CG180 TTR < 65%
- Inform
 - Patient
 - Prescriber

Where to go next

AF Review Clinic

- Pharmacist led
- Initially assess all NVAF patients with TTR <65%
- Dedicated consultation time

A.F. Review Clinic

- Patient assessment
- Treatment decision
- Patient education
- Individualised treatment plan

A.F. Review Clinic

- If possible and best treatment choice keep on warfarin and improve TTR
- NOACs offered and discussed
- Self monitoring

The future

- Second review appointment after 1 month
- NMS with community pharmacy
- Third review after 6 months
- Annually, although bloods done as per SPC
